

Learning Strategy

Learning Strategies are the thoughts and actions that help make learning easier or more effective. The learning strategy for this lesson is *Ask to Clarify*.

In the video you see Anna ask Amelia: "What are you doing?" Amelia answers, "I'm reading." Then Anna asks a question to clarify: "Are you reading the news?"

Asking a question to clarify is a very useful learning strategy, because it helps you get more information. You can also learn new words when someone explains more about what they said.

Teachers, see the [Lesson Plan](#) for more details on teaching this strategy.
