

Learning Strategy

Learning Strategies are the thoughts and actions that help make learning easier or more effective. The learning strategy for this lesson is *Look for Ways to Practice*. We learn to speak by practicing often. Here is an example.

Nina sits on the bus next to a friendly American woman. Looking for a way to practice English, Nina asks, "What is the weather in your city?" The woman tells her about her home town, Tampa, Florida. "It's very warm and sunny." Nina can now practice speaking English with the woman until her bus stop.

Teachers, see the [Lesson Plan](#) for more details on teaching this strategy.
