

Learning Strategy

Learning Strategies are the thoughts and actions that help make learning easier or more effective. The learning strategy for this lesson is *Use Images*. When we listen to directions, it helps to use an image in our mind or on a screen or paper to understand them better. Here is an example.

Marcos wants to go to his friend Lucia's house. He asks her to give him directions. As he listens, he draws a map on a piece of paper. Lucia says, "Turn right at the supermarket." Marcos draws a box with an 'S' on his map. He draws an arrow (=>) to the right. When he is walking to Lucia's house, he thinks of the map. He remembers the supermarket and the arrow. He turns right and finds Lucia's house.
