Learning Strategy

Learning Strategies are the thoughts and actions that help make learning easier or more effective.

The learning strategy for this lesson is *Classify*. We can *classify* kinds of words we learn, or groups of things we need to remember.

In the video for this lesson, you see Caty classifying the way she wants Anna to read the news. Caty says, "When we read the news we are always reading **facts**. We never show our **feelings**." She is classifying two different things: facts and feelings. Anna needs to learn the difference to read the news the way her boss wants her to do it.

How do you classify when you are learning English? Write to us in the Comments section or send us an email. Teachers, see the Lesson Plan for more details on teaching this strategy.
