

Learning Strategy

Learning Strategies are the thoughts and actions that help make learning easier or more effective.

The learning strategy for this lesson is *identify problems*. When we are talking with someone in English it helps to *identify problems* in understanding and get the information we need to correct the problems.

In the video for this lesson, there are three problems. Here are two of them.

1. Anna identifies one problem. Pete is not talking loud enough. She tells Pete. "Sorry, I can't hear you." Pete speaks more loudly so she can hear him.
2. Later, Pete does not understand Anna. He asks, "Do you mean drive a race car?" Anna explains that she means to "drive a taxi or drive a bus."

Can you find another time in the video when Anna or Pete identifies a problem? Write to us in the Comments section or [send us an email](#). Teachers, see the [Lesson Plan](#) for more details on teaching this strategy.
