

Learning Strategy

Learning Strategies are the thoughts and actions that help make learning easier or more effective.

The learning strategy for this lesson is *cooperate*. When we work together to help others we are *cooperating*. We also *cooperate* when we help someone understand their second language.

In this lesson, Marsha tells Anna about a party. Everyone who comes to the party cooperates by bringing food or performing something. Anna wants to cooperate by performing at the party.

Can you find another time in the video when Anna or Marsha cooperate?

Write to us in the Comments section or [send us an email](#). Teachers, see the [Lesson Plan](#) for more details on teaching this strategy.
