## **Learning Strategy**

Learning Strategies are the thoughts and actions that help make learning easier or more effective.

The learning strategy for this lesson is *Make Associations*. When we think of connections between things we are *making associations*.

In this lesson, Dan makes an association to help himself remember Anna's name. After Anna tells him her name, he says, "Like Americana!" The name "Anna" sounds like the end of the word "Americana" to Dan.

Can you find another example of making associations in the conversation?

Write to us in the Comments section or <u>send us an email</u>. Teachers, see the <u>Lesson</u>

<u>Plan</u> for more details on teaching this strategy.
