

Learning Strategy

Learning Strategies are the thoughts and actions that help make learning easier or more effective.

The learning strategy for this lesson is *Sequence*. *Sequence* means thinking about how one event or action follows another.

For example, Anna says, "First, the pitcher pitches the ball to the batter. The batter bats the ball. Then, the runner runs to first base."

Can you find an example in the lesson of a sequence (hint: it follows "We found the answer!")? Write to us about it in the Comments section or [send us an email](#). Teachers, see the [Lesson Plan](#) for more details on teaching this strategy.
