

Learning Strategy

The learning strategy for this lesson is *Substitute*. That means using one thing instead of another. In using English, if you can't think of a word, you can use a phrase that means the same thing. Let's say you cannot remember the word "huge." You can say "very, very big" instead and communicate the same meaning. Or, you can use a gesture with your arms out to your side. Gestures are another way to substitute when communicating in your second language.

In this lesson, after Anna makes pancakes for dinner, she says, "Yes! I call it let's-eat-breakfast-for-dinner dinner!" She substitutes a breakfast food for a dinner food. Marsha agrees with Anna's substitution. She says, "Anna, you made it work!"
